

A Level Chemistry revision masterclass webinars

An essential package of five online revision masterclass webinars suitable for all AQA A Level Chemistry students preparing to take final exams

Dates (Mon/Thurs)	Time	Class	Summary of content
29/04/19 or 02/05/19	6.30pm-8.30pm	Essential maths skills	Key calculations and graphs for A Level Chemistry
06/05/19 or 09/05/19	6.30pm-8.30pm	Mastering the mechanism	Understanding how the curly arrow describes a chemical reaction
13/05/19 or 16/05/19	6.30pm-8.30pm	Stretch and challenge	The A* questions (and how to answer them)
20/05/19 or 23/05/19	6.30pm-8.30pm	Think like an examiner	How understanding the marking process can benefit your exam technique
27/05/19 or 30/05/19	6.30pm-8.30pm	The big picture	How seemingly disparate topics link together and how recognising this leads to greater understanding of the subject as a whole

About the webinars: All webinars delivered in real time. Instant messaging allows the presenter to field questions during the presentation. Each class will last approximately 1hr 30 minutes, followed by Q&A for any unresolved questions. Presentation resources made available to all delegates following the webinar.

About the presenter: Steve Smith has almost fifteen years of experience teaching A Level Chemistry, mostly the AQA syllabus. He has also worked for many years as an A Level examiner for AQA and has used knowledge of the marking procedure and process to inform his students and help prepare them for their final exams. The A Level Chemistry masterclass series is an unmissable opportunity to learn from his experience and expertise, forming a vital component of your preparation for your final exams.

Registration costs only £10 per class.
