

Mastering the mechanism

A Level Chemistry masterclass webinar

A detailed review of all mechanisms and related chemical equations in the AQA A Level Chemistry syllabus

- **Free radical substitution** – the most common mistakes (and how to avoid them)
- **The curly arrow** – what it is and the correct way to use it
- **Nucleophilic mechanisms** – knowing how to choose the correct one
- **Electrophilic mechanisms** – knowing the difference between them and when to use them

All webinars delivered in real time by a highly experienced A Level Chemistry Teacher and examiner. Each class will begin at 6.30pm, last approximately 1hr 30 minutes, concluding with 30 minutes of time for Q&A.

This webinar is available on two dates, Monday 6th May and Thursday 9th May at a cost of only £10 per student. Places are limited so don't delay!
